

## End and transition bushes, Wall and ceiling transitions 30°

### End and transition bushes

- for connecting conduits or as ceiling exit
- closed off on formwork side with plaster skin
- suitable for all types of formwork

<b>Order number:</b>	<b>1204-29</b>
EAN:	4013456353107
Height	41 mm
Diameter	41 mm
DIN EN conduit Ø	32 mm
Number of parts	2
Visible area Ø	35 mm
Packaging inner/dispatch	25/100

End and transition bushes and wall and ceiling transitions 30° for securing a continuous empty conduit system at transition points. The very small design of the end and transition bushes allows the feeding of empty conduits even between close-fitting reinforcement bars without the need for time-consuming work. The optimal radius of the wall and ceiling transitions and the exact-fitting conduit holders prevent abutment edges at transitions. This ensures the flexible feeding of cables from both directions.

- Small design for easy installation between close-fitting reinforcement bars
- Optimal transition radius - easy cable insertion
- Installation on the opposing formwork with support element and abutment
- 2-piece design with secure catch mechanism
- Easy removal of the plaster skin
- Small visible area - clean wall and ceiling appearance
