B¹, the new on-site mixed concrete range of products for electrical installation work. In addition to the tried-and-tested system features such as the flat front part, sturdy fixing domes and the support element slot with a sprung box base, the new B¹ range has innovative conduit entries, sturdy slots for the new B¹ Prefix® system wing range, and also bridges – which can be broken out later if required – for connecting accessories in combinations.

- Suitable for all types of formwork
- Slot for B¹ Prefix® system wing set
- For sturdy combination over the complete box body with the standardised 71 mm combination distance
- Innovative conduit entries for fast fitting on the building site
- Signal bristles for easy location with installations on the opposing formwork side
- Plenty of installation space
- Installation of pre-wired installation accessories with multiple combinations, because the bridge can be broken out later
