The low 35 mm installation depth makes the one-gang box ideal for installation in cavity walls with a small cavity. In addition, thanks to the zero tension technology, the one-gang box can be fitted securely in wall systems with thin boarding.

- With zero tension technology for thin boarding
- Low 35 mm installation depth
- Cable entries with integrated cable retention
- Device screws with flat countersunk head
- For cables up to Ø 11.5 mm
