

Magnetic voltage probe, 6 mm

111.7045

- ▶ **Magnetic adapter for electrical connection to screw heads.**

1. Use

This Magnetic adapter is used for a fast and easy electrical connection to screw heads. Voltages can be tapped from circuit breakers and power switches with PQ-Box.

2. Structure

The probes magnetic head consists of a strong magnet which is set between two iron poles. Subsequently the holding force is extra strong. The probes top has a convex surface shape to ensure a good electrical connection at curved screw heads.

Practical application example

3. Technical Data

Voltage:	1000V
Peak diameter:	6mm
Socket:	4mm
Protection class:	1000V, CAT III, 2A

We take care of it.

4. Ordering Information
