

MBI-PC BK 181309 M

Article No. 0906108390

Material: Polycarbonate GF10

Protection class: IP66

MBI BLACK - THE HIDDEN CHAMPION - Remarkably invisible.

MBI-BLACK industrial enclosures are the perfect combination of discreet presence, modern design and excellent technical performance.

Enclosure bases are designed with metric pre-formed knockouts on all four sides. These can be opened for cable entries. Covers are supplied in black colour.

Their entirely black design integrates them seamlessly into industrial surroundings and enables a discreet, almost invisible installation in factory halls, control cabinets, camera systems or shaft installations. Thanks to their design in elegant black color and clean shapes MBI-BLACK enclosures have a modern appearance.

In addition, they reliably meet the high technical requirements of industrial installation technology. MBI enclosures are made of glass fibre reinforced polycarbonate. The material is UV-resistant (UL 746C F1) and self-extinguishing (UL 94 V0). With a seamlessly foamed 2-component polyurethane gasket, all types achieve protection class IP66. Cover screws are made of plastic material and therefore they are completely corrosion-free. The impact resistance corresponds to IK08, making the MBI BLACK enclosures ideally suitable for use in industrial and outdoor applications.

Depending on quantities, we can produce customer-specific mould sides. Individual knockouts, cutouts and hole designs can be implemented in the injection mould and there is no requirement for further mechanical processing.

MBI BLACK enclosures offer a variety of mounting points for direct fixation of components into the base. Self-tapping plastic screws for assembly are included in the scope of delivery.

Material information

Material cover	Polycarbonate GF10
Material base	Polycarbonate GF10
Material sealing	Polyurethane
Material screws	Plastic
Silicone-free	✓
Halogen-free	✓
Material UL listed	✓
UV-resistant	✓

Temperature resistance and application areas

Permanent operating temperature max. (°C)	100
Permanent operating temperature min. (°C)	-40
Suitable for outdoor use	✓
Suitable for indoor use	✓

Technical specifications

Protection class IP	66
Norm of protection class	DIN EN 60529
Impact resistance IK	08
Norm of impact resistance	EN 50102
Flame retardancy	V-0
UL-Subject	UL 94
Fully insulated	✓
Sealing foamed seamless	✓
Captive cover screws	✓
Assembly tool	SL 5,5
Tightening torque cover screws max. (Nm)	1.4
Tightening torque cover screws min. (Nm)	1,0
