Pro-face Product Guide 2021

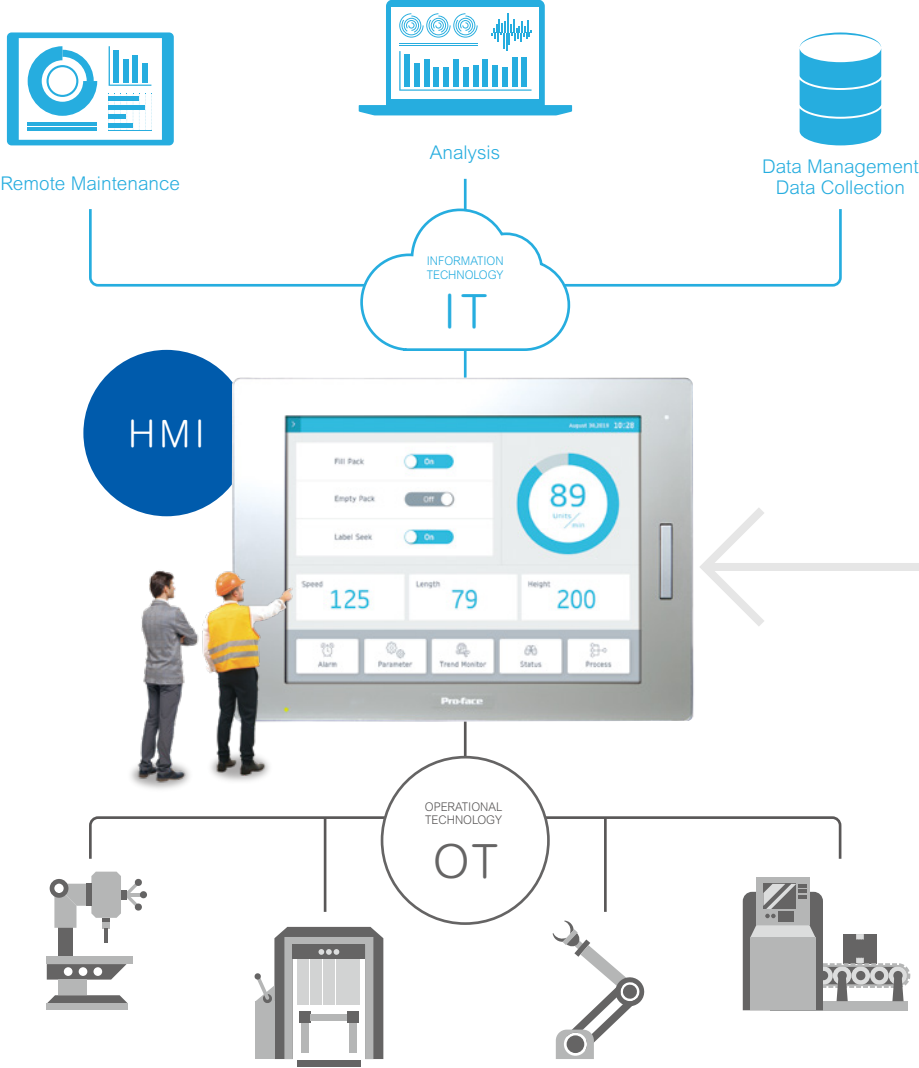

Find the best HMI from our wide range of products

proface.com

Pro-faceTM

by Schneider Electric

Pro-face Brand Concept

HMI Centric

HMI is a window to people and machines that lets everyone from operators to managers access the information they need in the format they desire from any device or network. HMI Centric Solutions make the best of the human workforce with the digital technology.

How to empower workforce with HMI Centric concept?

An HMI Centric concept is actually a kind of industrial IoT solution, in which we make the best of the human workforce and we take the best leverage of the new digital technology.

High Flexibility

Open Connectivity meets flexibly various needs

OT / IT Connectivity

Connect directly to a wide range of devices and networks with various vendors.

Offer Scalable and Customizable

A wide range of product lineup including modern technologies to meet the specific needs of various customers.

Collaborative System

Ready-to-use embedded HMI service to access machines remotely and securely.

Simple Visibility

Empowered human workforce

Intuitive Layout Design

Everyone easily operate and access precise information in a fast HMI design.

Increasing Information Value

Rich and expressive interfaces and intuitive operation in a large amount of data to utilize easily.

Modern Visualization

Supported by high-resolution graphics and tablet style displays with smooth response which Millennials favor.

Strong Reliability

Peace of mind on your site

Robust and cyber secure Solutions

Based on quality best practice since the world's first HMI (GP Series) was first developed in 1989.

Global Availability / Support / Training

HMI Specialist service & support delivering certainty around the world.

Effortless migration to innovations

Special care to migrate our instrument to our new concept and to our new innovations.

HMI Centric Architecture

HMI Centric Architecture, the solution to problems associated with designing and developing your equipment and facilities. Get started quickly by combining validated equipment with Pro-face HMI!

High Flexibility Collaborative System

HMI with WiFi router + Smartphone

You can easily start secure remote maintenance over 3G/4G using your smartphone as an access point, even in environments where a network cannot be built or the end user's on-site network is not available.

Simple Visibility Increasing Information Value

HMI with Network camera

Network cameras are attracting a lot of attention as a tool for site improvement, especially in large equipment and multifunctional machines. By capturing scenes that are not noticeable to the naked eye or the cause of errors that cannot be determined by data analysis alone, you will be able to reliably uncover facts that were previously unknown to you.

Simple Visibility Increasing Information Value

BOX HMI with QR Code for mobile HMI operation

Using BOX HMIs and tablets saves space and reduces costs for efficient maintenance improvements on site. With Pro-face connectivity, you can monitor the information of various equipment on your tablet. It is possible to visually check the specific location of the equipment while using the tablet, enabling you to deal with errors reliably. Also, by using a QR code, you can quickly and reliably access the equipment.

Strong Reliability Robust and cyber secure Solutions

HMI with ID Card (NFC) reader

Security measures can be easily implemented by utilizing HMI to manage the operations of equipment and facilities that are operated by multiple operators or that have special processes.

Simple Visibility Increasing Information Value

Robot HMI

In the past, a robot technician had to use a special teaching pendant to determine the state of the robot and restore it when an error occurred. However, with dedicated sample screen is available to check the status of the robot on HMI. Robot HMI makes it easy for anyone to determine the status of the robot.

HMI Centric Customer Story

Pro-face HMI is indispensable for next-generation machines; Special vehicles that operate outdoors.

In this interview, by adopting SP5000X, Kawasaki Kiko Co., Ltd.,(link is external) a comprehensive manufacturer of tea production and harvesting machines with the top market share in this field successfully implemented a next-generation project. The project has competed in a single year instead of the expected two to three years. The company continues to make the utmost efforts to provide more delicious tea to people around the world.

Customer Story Key Figures

High Flexibility
Development time
75%Down
Usual 3-year development time was reduced by 75% to around 1 year.

Simple Visibility
Operability
200%UP
Operability improved by 200% by using a bright display and remote monitoring.

Strong Reliability
Maintenance time
30%Down
Maintenance efficiency increased by 30% through HMI specialist support.

Why we chose the SP5000X

An essential factor was **outdoor visibility**. When we borrowed a sample unit, we realized the visibility was excellent. We found that the high brightness and **resolution** of Pro-face HMI could display the **necessary information** even on small screens in the **outdoor** situation. Another reason we chose the SP5000X was that it supports CAN communication (**J1939**), which is a significant advantage. We needed it to connect ECUs with the HMI. That supports as an option. Furthermore, the power supply specification is compatible with **12V**. These three big points pretty much convinced us. One more surprisingly important point was **sales and support**. When we asked them for certain features, they **quickly responded** with excellent **suggestions**. We received substantial support and feel confident we can produce extremely **reliable**, productive machines when working with Pro-face. Pro-face HMI allowed our engineers to imagine how our customers will use the system. Details about how to do this and how to do that became much clearer. It may have been the most significant reason all for choosing the SP5000X.

Effects and benefits

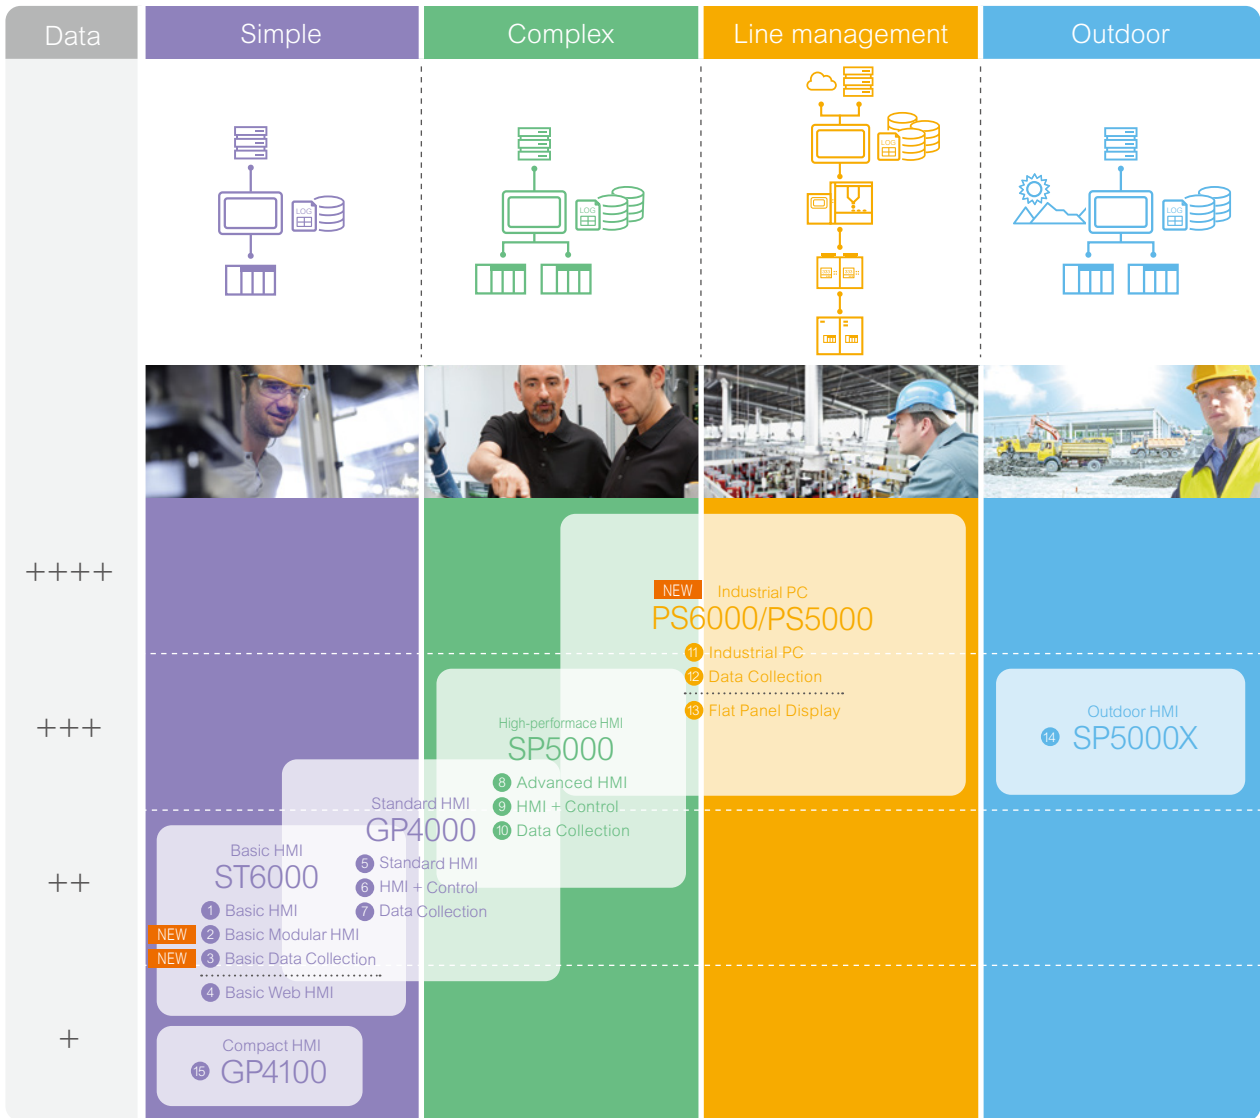

The SP5000X mainly serves as an **interface** for setting parameters. However, it is also an essential device for **data management** and connecting to the **cloud**. Since all information about the machine can display on the SP5000X, the HMI should be considered the machine's **central** device. It is no exaggeration to say HMI is most **essential** for the new generation machine. By connecting the HMI with cloud service, we did not have to develop **IoT**-related elements. It significantly accelerated development and was an advantage that allowed us to complete the project from scratch in as little as a year. By collecting and analyzing accurate information from the KJM6

passenger-type multi-purpose management machine, which plows and fertilizes fields, it became possible to distribute fertilizer based on the rate of **operating correctly**. When applied to pest control, the system also makes it possible to reduce the use of pesticides in fields. Now amounts of pesticide fix in most of the area. However, we expect more appropriate measures of pesticide in each area based on **optimized management**, harvesting, and pest data.

Pro-face Product Overview

ST6000 Series BLUE VERSION UP GP-Pro EX VERSION UP

- 1 Basic HMI (ST6000)
- 2 Modular HMI (STM6000)

Industrial PC **NEW**

PS6000 Series BLUE Line Management Lite SCADA Open Studio

Improve your productivity with the most reliable PC-based architecture experience.

New PS6000 from the HMI leader: Robust as a terminal, Open and High-performant as a PC, even more economical.

New Experience

01 New Experience for Automation Engineers

A rich modular catalog and a strong background of customization service.

To run any software, including pre-installed bundles.

Easily selected with new Product Configurator and with quick delivery.

Software

Advanced HMI

SP5000 Series GP-Pro EX

Flagship model achieving high performance and robust network security

The SP5000 series is an HMI that provides information quickly and efficiently, and promotes "smartification" of your factories.

Flagship

01 Manage more information in various forms

Fully compatible for direct use with Windows applications, the SP5000 can handle materials, such as manuals and error codes, without conversion.

No need to bring PC for debugging and JOB reprogramming.

MS Excel

PDFs

Movies

Ladder programming tools

Able to use ladder programming tools...

02 Simple activation by inserting cards

Display data is scalable to fit multiple sizes of monitors, which can be applied to new equipment for mass production. There is no need for on-site data transfer because SP5000 models are activated when the SD card is inserted.

This is a time-efficient way to carry out on-site troubleshooting.

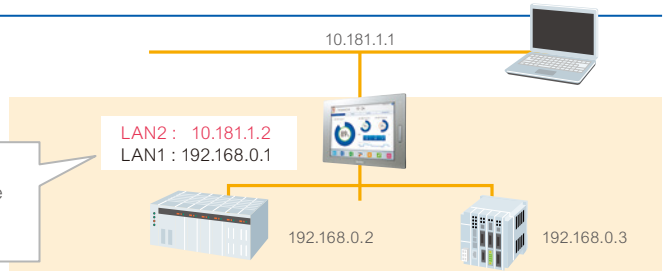

SP5000 works simply by replacing the card.

03 Network segmentation

All displays of SP5000 series have two Ethernet I/F ports as standard. The IP address is changed on the SP5000 at delivery.

Only the IP LAN2 address within the office network is changed.

And more...

Cost Reduction and Equipment Improvement with I/O expansion

Using the option unit allows you to connect equipment that requires simple control + HMI, additional I/O expansion and remote I/O expansion.

Outdoor HMI

SP5000X Series GP-Pro EX

An outdoor HMI that is visible under sunlight, and resists extreme environment

We have created a sunlight readable screen that is resistant to direct sunlight and extreme temperatures. With an enhanced information display unit and improved operability, this product is suitable for multiple applications under harsh environmental conditions including use in special purpose vehicles such as firetrucks and construction equipment; parking lots and gas stations; and the oil and gas industry.

Extreme

01 Sunlight Readable

No Plastic overlay

High brightness liquid crystal panel
High brightness liquid crystal panel (1000cd/m²)

Anti-reflection (Anti-glare)
Improve visibility in sunlight by decreasing glare.

High-transmittance design
The liquid crystal display uses a glass touchscreen to improve transmissivity.

Anti-glare
Glass touch sheets
High brightness liquid crystal panel

02 Robustness

UV Protection
Cut UV rays by 99% (380nm)

Full Coating
Improve longevity

UV Protection

Improve UV protection and prevent deterioration by replacing plastic components that are exposed to sunlight with metal or glass.

Full Coating

Improve the longevity of the product even when used in outdoor environments with dust and extreme temperatures by adding coating on the substrate, LCD, and power source components.

03 Environmental Resistance

Sufficient against Vibration/Shock

Sufficient against Vibration/Shock

We do apply IEC60068-2-6 or IEC60068-2-27 in stead of IEC61131-2 test which is typically used for factory automation devices. Because they are more suitable for earth moving machines, or generators or compressors which use engines to operate machines.

* Display Module : 7" w: 2G / 40G, 15" w: 1G / 15G
Box Module : follow the connected Display Module.

Operating temperature: -30°C to 70°C

Operating temperature: -30°C to 70°C

Can be used in harsher environments without the need for anti-frost heaters or fans and cooling systems.

* Display Module : 7" w: -30 to 65°C, 12" w: -30 to 70°C, 15" w: -20 to 60°C
Box Module : follow the connected Display Module.

Dust and waterproof

Dust and waterproof

Compatible with IP66F, IP67F, Type 4X (indoor and outdoor use) allowing for use in harsh outdoor conditions.

04 Maintainability

Modular structure that is easy to maintain

It is possible to replace the exposed display without changing the whole unit. The box is designed with the application pre-installed and can be used immediately upon changing components. Changes can be made quickly and easily without the need of a PC, optimizing time and resources.

05 IoT Solution

Data collection and remote maintenance

Collect data remotely from a PC such as error history and operation status, outcome, and history. It is also possible to access the HMI, verify the operation status, and conduct maintenance remotely via PC or tablet.

BLUE GP-Pro EX

Achieve a high level of visualization with the new basic HMI

The ST6000 series brings a new level of visualization to the Basic HMI market which no other basic product has accomplished.

New Visualization

01 Refined

An innovative HMI with a sophisticated design that transforms simple machines.

16 Million Colors

Achieve the previously unimaginable and bring displays to life with 16 million colors.

Better Graphics and Font

Display beautiful fonts with anti-aliasing. Customize gradation and transparency to meet your needs.

02 Simple & Easy

The simple design and interface help increase productivity and efficiency.

NEW

Easy Migration

Use the same application(GP-Pro EX) and leverage existing assets.

Same application

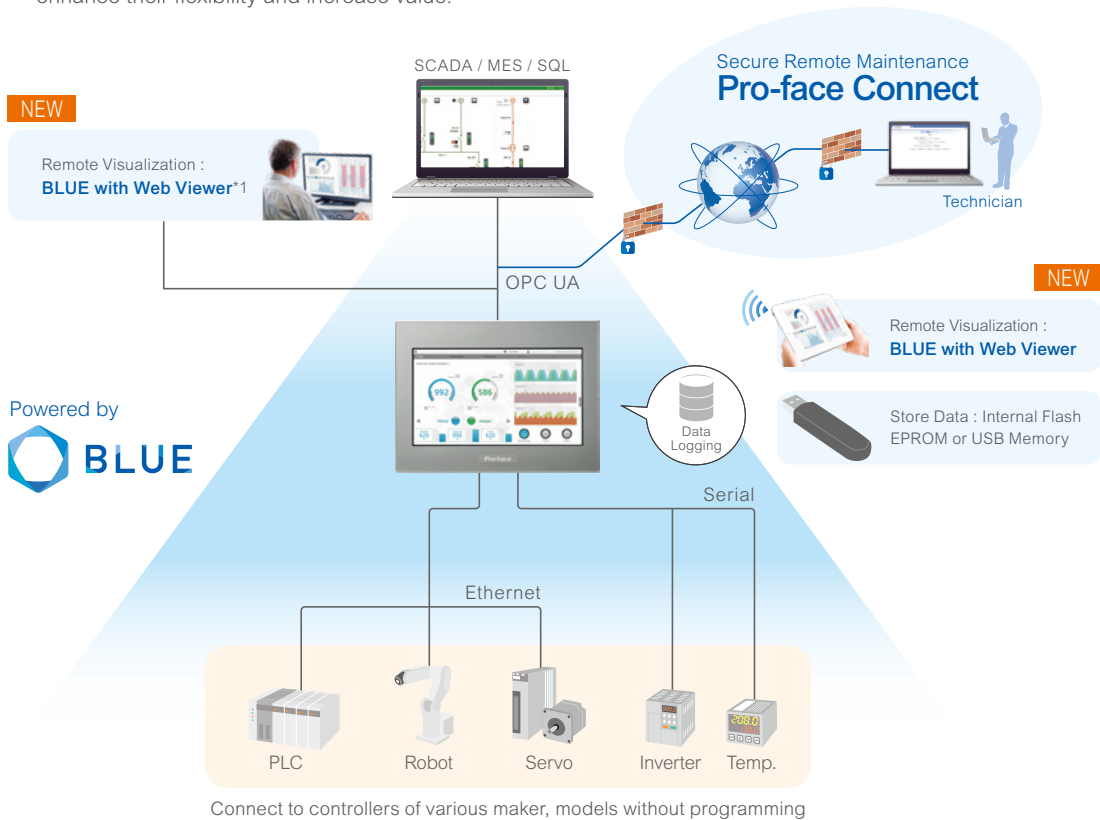

GP4000W model(4:3, Wide)

ST6000(Wide)

03 Connected & Secured

Seamless and secured connectivity with various devices to enhance their flexibility and increase value.

Dimension: ST-6400WA

Basic Modular HMI **NEW**

STM6000 Series BLUE

The STM6000 series in the complement of the ST6000 range brings a new level of visualization to the Basic HMI market which no other basic product has accomplished. Also, the product can be installed easily as no tools are necessary and very fast with the unique push-button mounting system through a $\phi 22$ mm circular hole.

01 Easy & Fast Installation

The product can be installed easily as no tools are necessary and very fast with the unique push-button mounting system through a $\phi 22$ mm circular hole.

02 Flexible Installation

Thanks to modularity design, for specific applications (space, temperature, or vibration constraints) product can be separated with cable accessory 3m, 5m,10m to install the Display module on the panel door and the rear module on DIN rail with dock station adapter.

03 Easy Maintenance

Spare part front & rear modules are available to replace the faulty part.

*1 ATEX/IECEx Zone 2/22 will be acquired in 2021.

Dimension: STM-6400WA

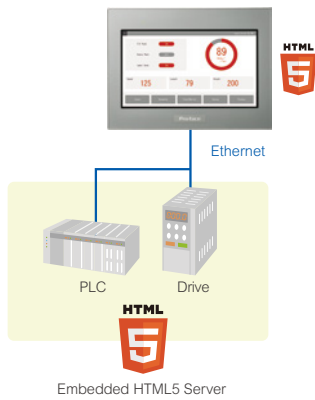

STW6000 Series

Many industrial automation devices support HTML5, which can be displayed on PCs, tablets, and smartphones. As a Web HMI, STW6000 can easily display HTML5 data from multiple devices. We are the HMI specialist, and the superior quality display, maintainability and robustness of our Web HMI meets the needs of simple machine applications for factory automation.

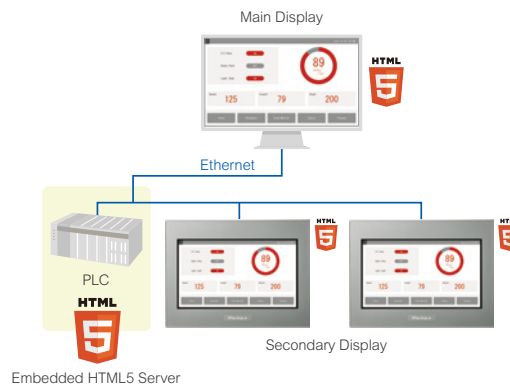

01 Main Display

Main display for simple machine is alternative to basic terminal.

02 Secondary Display

Secondary cost effective display can also visualize small information for maintenance-diagnostic directly from PLC Servers or from the main display if it embeds its own server.

Standard HMI

GP4000 Series *GP-Pro EX*

Standard

Varied and flexible lineup satisfying customers needs

Combines abundant functions with a broad line-up of versatile models to meet the specific needs of every customer.

01 Widest line-up in the Pro-face brand

From classic to unique, we offer a wide range of choices to meet any application.

02 Compatible with our legacy models

Data in GP-PRO/PBIII for Windows or later is convertible using project converter. Smooth transition to the latest models.

USB expansion options unique to Pro-face

Reduce excess inventory of indicator lights

EZ Tower Light Model : PFXZCETWHA1 (tube mounting with fixing plate)
Model : PFXZCETWW1 (base mounting)

With this single model, multiple colors and sounds can be set. Capable of indicating the state of equipment.

- LED lamps adaptable to various types of setting
- Configuration from HMI
- 4 colors (red, green, blue, and yellow) and 3 modes (off, on, and blink)
- Number of lamps: 3
- Buzzer patterns: 4

Combining switch and lamp

EZ Illumination Switch Model : PFXZCCEUSG1

Improve visibility with 6-color illumination. Reduce man-hours for control panel installation and wiring

- LED light switches accept a wide range of settings
- Configuration by HMI design software
- 6 colors (red, green, blue, yellow, white, and orange) and 3 modes (off, on, and blink)
- Protection structure: IP65 (front face where panel is embedded)
- Mount: 22φ circular mounting hole

Work-saving for inputting repeated values

EZ Numpad Model : PFXZCCEUKB1

Reduces screens needed for value input

- Alphanumeric and customizable function keys (Set by HMI design software)
- Protection: IP65
- Mount: 22φ circular mounting hole

Adding second LAN port with independent IP address

EZ LAN Adapter Model : PFXZCGEUEE1

The GP4000 series also allows you to securely set up a network.

- Same functions as built-in LAN port
- 10BASE-T / 100BASE-TX
- Limited to GP4000 standard models

Also can be used with Pro-face products other than GP4000 series.

BLUE Line Management Lite SCADA Open Studio

Flexible software for your need

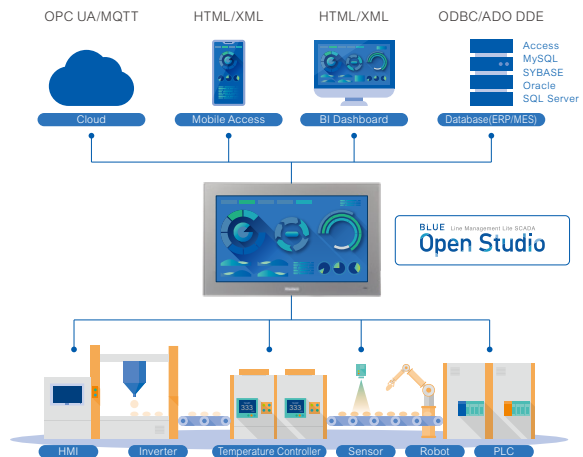

Pro-face BLUE Open Studio is a development and runtime software that incorporates all of the tools users need to create SCADA HMI applications, dashboards and OEE interfaces.

Basic Features

- | | | | |
|-----------------|---------------------------|----------------------------------|------------------------|
| Scripting | Animation | Recipes | Email (SMTP) |
| Security | Database | Multi-touch | FTP |
| Symbols | Events | Reports | Historical Performance |
| Tags Database | Graphics and Design Tools | Scalable | PDF Export |
| Troubleshooting | Trends | Scheduler | SSL Support for Emails |
| Gestures | Multi-Language | OPC | DDE Client |
| Alarms | ActiveX and .NET | Intellectual Property Protection | Custom Widgets |

Connectivity

250+ available communication drivers for PLCs and many other devices.
Native OPC interfaces such as OPC UA/DA
Active X and .Net controls
Support upper connectivity to DB through MQTT.

Database

Connect to any SQL database (Microsoft SQL, MySQL, Sybase, Oracle), or Microsoft Access or Excel, and ERP/MES systems (including SAP), even from Windows Embedded Compact Edition. BLUE Open Studio is flexible, offering a built in interface that doesn't require knowledge of SQL for trends, alarms/events, grid and other objects).

OPC

BLUE Open Studio provides native OPC interfaces, such as OPC DA (Server/Client), OPC HDA(Server), UA (Server/Client) and OPC .NET 3.0 (Client). BLUE Open Studio also supports OPC XML.

Trends

Real-time and Historical trends, and SPC functionality are supported. Log data in binary format, or to any local or remote SQL database. Color or fill trends with graphic elements to enhance clarity of data. Date/ Time based or numeric (X/Y plot) trends give you the flexibility to display information that best suits your application.

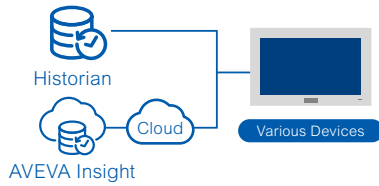

Custom Widget

Custom Widgets provides the ability to integrate third-party web-based controls into the HMI/SCADA project screens. Develop and share a library of controls that can be easily integrated into an application and accessible through multiple platforms.

Historian

BLUE Open Studio includes support for saving historical data from some task worksheets to a Historian database or AVEVA Insight.

Import Wizard

PanelMate (Eaton and Cutler Hammer)

PS6000 + BLUE Open Studio

Best in class pre-installed bundle to improve your business with easy select and quick delivery

1

Configured bundle, Hardware, Software and OS

Single configured order, for fast delivery of PS6000 with latest pre-installed* software version, and activation license, rich options
Dedicated support team for a single contact window to resolve any issues

2

Save time & resources on validation and commissioning

Extensive testing and validation process from the HMI leader, for easy integration, hardware, software and operating systems to complete commissioning faster
To save time, money and resources making application up and running

Save Time and Stress

Save Money

3

Sustainable supply & compatibility

A single supplier for software and hardware requirements
Stress-free migration to new releases, answering long-term industry requirements

QUICK DELIVERY

website

manual

software

Versatile Software

Revolutionary new software, BLUE offers an alternative experience in HMI project design. Anyone can easily create and change dynamic screens.

Refined

High quality graphics

Clearer fonts and screen parts make an obvious difference. The clarity is not affected by zoom level

Stylish design

Customize gradation and transparency to meet your needs. Stylish expression including transparent effects.

Simple & Easy

One source, multiple ways to present

Support HMI project designer to adapt/customize projects and create easily situational awareness projects delivering more intuitive projects to the operators.

View all needed information at once

Simply display all necessary screens in one place. Multi-screen information gives rise to improvement in operation efficiency.

Responsive Behavior (Dock panel)

Several pages in one screen, and independent navigation in each section. Adapt the size of information to meet your needs with one click on the dynamic display.

Highly flexible graph features

Using data analyzing features, such as graph comparison, can produce more expressive insight than ever before

Change the value of a variable without programming

Use a converter to change the value of a variable from the defined unit, range, scale, and expression without programming.

Connected & Secured

Pro-face connectivity

User-friendly protocols allowing you to connect your devices with ease via multiple interfaces and connect OT to IT with OPC-UA server.

Remote Access NEW

Remote Visualization on PC or Tablet / Smartphone with new Web View features of BLUE.

See status of equipment or devices in the right place at the right time.

Simple steps to start to Remote Access

Secure remote access solution

"Pro-face Connect" is a ready-to-use solution for Remote Access Over Internet on ST6000 Series without programming or configuring each device. Start using the cloud based "Pro-face Connect" Smart Industry solution on your existing network without involving your IT department. No network or firewall configurations are required and still the highest level of security and encryption is in place from end to end, from any PC, tablet and smartphone to your machinery.

Enhanced cybersecurity against basic intentional attacks

- Need admin rights to download project to HMI target
- Auto user log out after predefined idle time
- Doing security checking during booting
- Secure Ethernet download supported by IPSec and password protected project file

Product Name	Model	Description	Supported models	
BLUE Professional	PFXBLPCZLSPA31	Single license	Email	ST6000 Series, STM6000 Series, GP4100 Series Color model, SP5000 Series, PS5000 Series
	PFXBLPCZLSPM31		Paper	
	PFXBLPCZLSPA31	Group License	Virtual delivery	
	PFXBLPCZLSPM31		Printed delivery	
	PFXBLPCZLSPA31	Team License	Virtual delivery	
	PFXBLPCZLSPM31		Printed delivery	
BLUE Basic*1	PFXBLECZLSRA31	Single license	Email	ST6000 Series, STM6000 Series, GP4100 Series Color model
	PFXBLECZLSPM31		Paper	
BLUE Runtime	PFXBLRCZLSPA31	Single license	Virtual delivery	PS5000 Series and PC / AT
	PFXBLRCZLSPM31		Printed delivery	
BLUE Web Viewer Runtime	PFXWRT001	Single license	License Keycode	ST6000 Series, STM6000 Series, SP5000 Series, PS5000 Series
	PFXWRT010	10 Licenses		
	PFXWRT100	100 Licenses		
BLUE USB Media Installer	PFXBTUSB32	USB Media with an installer		

*1 Basic License doesn't support for WEB API and OPC-UA. OPC-UA Server is not supported on GP4100 Series Color model

HMI Design Studio

Start the best experience with Pro-face HMI

HMI Design Studio is a creative and easy-to-use website that helps you and your team create HMI design for engineering

Installer

Download Pro-face HMI Versatile software BLUE (Full Installer / Trial Mode).

Design Studio

Download over 300 kinds of ready-made template screens and parts or design it by yourself.

Online Tutorial

Learn skills to achieve your personal and professional goals. Join today to get access to thousands of courses.

Blue Support

Contact our support or learn more about support topics that will help you.

Welcome to a whole new HMI experience

Screen editor software

GP-Pro EX

Standard screen editor software

Enables HMI screen and logic programming.
Screen customization can be performed with ease due to many functions that promote compatibility with legacy applications and reduce development time.

Connect directly to a wide range of devices

Largest number of drivers in the industry and many sample parts that enable connection with various manufacturers' equipment.

Leverage existing assets

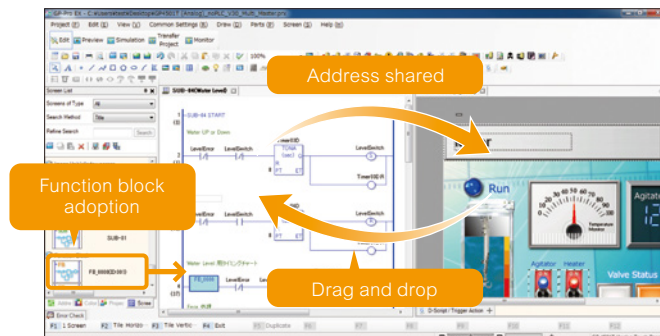

Able to display the difference between two similar files in detail.

Screen project files edited in the latest version can also be saved in the previous version.

Screen and logic can be edited with one software

Controller addresses can be used directly in the editor via drag and drop, thus reducing the development time.

Runtime engine **WinGP**

Screens created by GP-Pro EX operate on a Windows OS-equipped machine using the Runtime engine.

Seamless communication with control equipment

No need to develop a driver to communicate with control equipment such as a PLC or temperature controller.

Cooperation with user database using dedicated API

Settings of WinGP are editable and device address read/write of the connected device can be done by the user application.

Model	Description	
PFEXEDV**	HMI screen editor & logic programming software (DVD)	
PFEXEDLS**	1 license	GP-Pro EX editor license (license key code)
PFEXGRPLS**10	10 licenses	GP-Pro EX Editor Group License (license key code)
PFEXGRPLS**25	25 licenses	
PFEXGRPLS**50	50 licenses	
EX-WINGP-IPC	1 license	License for using WinGP on WinGP-compatible IPC (license key code)
EX-WINGP-PCAT	1 license	License for using WinGP on PC / AT-compatible PC (license key code)

** is changed with the version of software.

Data management software

Pro-Server EX

A simple way to start networking to enhance the communication between the office and the manufacturing site.

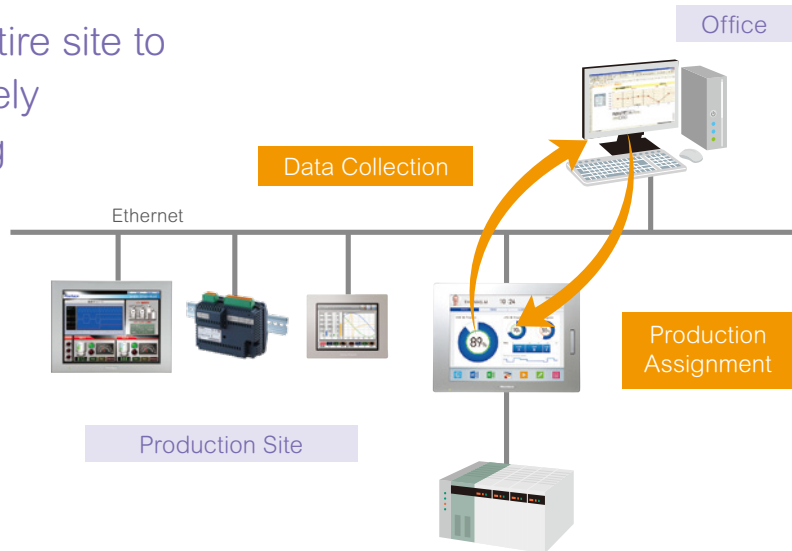

Real-time visualization and analysis of data from production sites. Remote machine monitoring and transfer of work instructions to increase efficiency between the production site and the office.

-  website
-  manual
-  software

Networking of the entire site to collect data collectively without programming

Collecting accurate information, and analyzing and utilizing all your data will lead to improvement in working processes!

Remote Access

Pro-face Remote HMI VERSION UP

Software that enables tablets and smartphones to display and operate the exact same screen as the on-site HMI. Secure design with full-feature functions taking into consideration tablet operations.

Supported OS	Android OS, iOS (iPhone, iPad, iPod touch)
--------------	--

Download (purchase) from App Store / Google Play

Pro-face Remote HMI Server VERSION UP

Installing Pro-face Remote HMI Server on a Windows device allows users to monitor and operate Excel and PDF files from Pro-face Remote HMI, in addition to the terminal operator screens.

Model	Description
PFEXRHSLS	Software to operate and monitor Windows applications such as Excel or PDF besides Pro-face HMI screen

Pro-face Remote HMI Client for Win VERSION UP

More powerful Pro-face Remote HMI for Windows OS launched. While inheriting the functions of Pro-face Remote HMI, newly improved functions were added.

Model	Description
PFEXRHCLS	1 License
PFEXRHCLS10	10 Licenses
PFEXRHCLS30	30 Licenses

Software for remote viewing of Pro-face HMI from desktop PC (license key code)

software

Secure Remote Access over Internet

Pro-face Connect

Connect and Go

Pro-face Connect is a ready-to-use embedded HMI service to access machines remotely and securely.

Small initial cost

No need to locate VPN router in every branch.
Able to operate the system with only the license of running cost.

Able to use IP address with no change

Able to connect to the existing local IP address with no change.
No man-hours to change an IP address.

Connect securely

Conforms with industry level standards for security. Able to build a secure network.

- User access based on x.509 Cert.
- AES data encryption
- ISA99 and IEC 62443

Customization and Services

Pro-face is experienced in providing HMI customization services based on specific needs.

Basic menu

 <p>Strengthen your brand</p>	 <p>Better design suits your machine</p>	 <p>Reduce engineering set-up time</p>
<p>Popular Option Replaced the Pro-face logo with a custom design</p> <p>Standard delivery date 10~ working days</p> <p>Reference price Base Price + 10 EUR~, depends on the design of customer's logo.</p>	<p>Popular Option Customized overlay</p> <p>Standard delivery date 40~ working days</p> <p>Reference price Base Price + 20 EUR~, depends on the screen size and number of colors required by customer on the overlay.</p>	<p>Popular Option Software kitting and product bundle</p> <p>Standard delivery date 10~ working days</p> <p>Reference price Base Price + 30 EUR~, in case of 3rd party software or OS kitting, additional support may be required from customer.</p>

Specific needs

We offer products outside the basic lineup to meet individual needs

Pro-face is experienced in providing HMI customization services based on specific needs

<p>Embedded Camera</p>	<p>Operation log with video and image.</p> <p>Target</p> <p>Semiconductor / Electronics</p>	 <p>SP5000 Series PFXSP5600TPD + SP5000 Series PFXSP5B41</p> <p>Snapshot or video recording by switches on the screen</p>
<p>Interface changes</p>	<p>Change the interface to meet customers' needs.</p> <p>Target</p> <p>Train / Special Vehicle</p>	 <p>SP5000X Series PFXSP5690WAD + SP5000X Series PFXSP5B41</p> <p>Ethernet(M12) x1 COM(D-sub 25pin)</p>
<p>Rear Mount</p>	<p>Change the rear mount design to suit specific use or situation.</p> <p>Target</p> <p>Food & Beverage Woodworking Machine</p>	 <p>GP4100 Series PFXGP4116T2D</p> <p>Flat on the surface</p>
