

→ Power Management → Integrated electrical protection

The Electric Vehicle Charging Station of Cabur's EV Smart Charger line offer the most advanced solutions and a complete range of products for all home building and medium-sized corporate needs.

- Stylish and compact design
- Available in Compact, Easy and Plus versions, from 7.4 to 22 kW
- Charging Mode: MODE 3, with cable and cable holder (CASE C) or without cable (CASE B)
- Connector standard Type 2
- WI-FI connectivity in Client or Access Point mode
- Start Charging with RFID cards or Web APP

- Status monitoring via Web APP
- · Web App configuration management
- DC Earth Leakage Protection 6mA
- · Integrated Meter, MID certificate
- Remote management via OCCP protocol
- Wall or stand mounting
- · CE; DEKRA, TUV certifications

## **ACCESSORIES**

#### **RFID Card**

#### **EVRFIDCARD**

For PLUS Series, to turn the charging process on and off easily and safely. For administrative management of the charging processes.

Spare badges can be automatically reconfigured by the EV Smart Charger Web App.

## **WEB APP**

To monitor and configure the EV Smart Charger parameters through a web browser interface

## **TYPE 2 CABLE / THREE-PHASE**

#### EVCPH3TY2M5

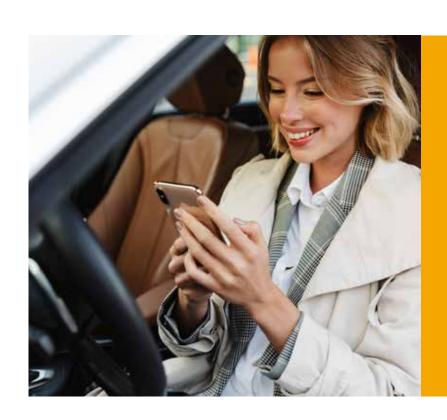

The three-phase cable, usable for single-phase applications too, is 5 meters long and allows to charge the EV, safety and wherever you need.

#### **STAND**

## EVSTD

For stand-alone installation. Up to two walboxes installation on the same stand (back to back).

Dimensions: 302.3 x 223.7 x 1461.9 mm
